INDEX TO CONTENTS, Volume 197

THE THOROUGHBRED RECORD and THE RACING CALENDAR

January-June, 1973

STAKES RACES are listed in alphabetical order according to name of the race, with the name of the winner indicated in parentheses. They are also cross-indexed by winners with the name of the stakes following.

Although dams of winners of stakes with more than $10,000 gross value are not indexed by name, the page reference to the stakes report in each case includes also the summarized racing record and complete year-by-year producing record of the winner's dam.

Foreign reports are indexed under "Foreign News" as well as opposite the appropriate subject matter and, in the case of full articles, opposite the name of the appropriate foreign correspondent under "Authors."

All official Jockey Club material is included in the specially-marked *Racing Calendar* section of the combined magazine, published the second week of each month, and is indexed herein under the heading "*Racing Calendar.*" This section also includes official information originated by the National Steeplechase and Hunt Association.

—A—
